

# Team Involvement in Demonstration

Date: 15 March 2026

Team ID: XXXXXX

Project Name: Human Development Index (HDI) Prediction using Machine Learning

## Team Involvement in Demonstration

This document records the participation and responsibilities of each team member during the project demonstration. Every member actively contributed to presenting different sections of the project, ensuring a clear explanation of the problem statement, system architecture, implementation, and project outcomes.

### Team Participation Details

| S.No | Team Member Name | Role in Demo      | Section Presented                                  | Contribution Summary                                                                                                                                            | Participation |
|------|------------------|-------------------|----------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| 1    | Devi Sri Prasad  | Team Leader       | Introduction, Problem Statement & Project Overview | Introduced the project, explained the objectives, problem statement, and overall workflow of the HDI Prediction System. Coordinated the complete demonstration. | Active        |
| 2    | Pravalika        | Backend Developer | System Architecture & Machine Learning Model       | Explained the technology stack, dataset, machine learning model, and prediction process.                                                                        | Active        |

|   |           |                     |                                          |                                                                                                      |        |
|---|-----------|---------------------|------------------------------------------|------------------------------------------------------------------------------------------------------|--------|
| 3 | Lavanya   | Frontend Developer  | User Interface & Live Demonstration      | Demonstrated the web application, user input form, HDI prediction, dashboard, and report generation. | Active |
| 4 | Jyosnnaa  | Database & Testing  | Database, Testing & Performance          | Explained database design, testing process, performance evaluation, and prediction accuracy.         | Active |
| 5 | Ramalaxmi | Documentation & Q&A | Documentation, Future Scope & Conclusion | Presented project documentation, future enhancements, and answered evaluator questions.              | Active |

---

## Team Coordination Notes

| Aspect                                 | Details                                                                                 |
|----------------------------------------|-----------------------------------------------------------------------------------------|
| Team Leader / Coordinator              | Devi Sri Prasad                                                                         |
| Overall Team Coordination Rating (1–5) | 5 / 5                                                                                   |
| Any Issues During Demo                 | Minor delay while loading the application due to internet connectivity.                 |
| How Issues Were Resolved               | Restarted the Flask server and continued the demonstration using the local environment. |

---

## Team Involvement Summary

All team members actively participated in the project demonstration and successfully presented their assigned sections. The presentation covered the project introduction, machine learning workflow, live HDI prediction, dashboard visualization, database implementation, testing results, documentation, and future enhancements. Effective coordination and teamwork ensured a smooth demonstration and clear explanation of the **Human Development Index (HDI) Prediction using Machine Learning** project.
